

Marta Domingo

hello@marta.fyi · LinkedIn · marta.fyi

I'm a designer with +10 years of experience building products, moving between shaping direction, working through interaction problems and staying close to the details. Currently at Miro, I lead Growth, working across activation, conversion and expansion. My experience spans AI and collaboration products, design systems and early-stage ideas across established products at scale and new spaces taking shape.

Background

MPhil, Contemporary Philosophy
Universitat Oberta de Catalunya ·
2023–Present

MBA, Business Administration
EAE Business School · 2020–2022

MA, Advanced Studies in Art History
University of Barcelona · 2015–2016

Bachelor's Degree, Product Design
ELISAVA · 2011–2015

Experience Design Program
KAOSPILOT · 2019

Lecturer at

ELISAVA — Master's Program Director, Strategic Design and Innovation
2023–2025

BAU — Lecturer, Master's in Experience Design
2021–2025

Massana School of Art and Design — Academic Advisor
2021

IED — Lecturer, Master's in Interaction Design
2020

ELISAVA — Lecturer, Undergraduate Degree in Design
2016–2021

Experience

Miro — Head of Design, Growth 2026–Present

- Lead Acquisition, Retention and Growth streams, working across activation and expansion impacting +100M people.
- Led the design of the AI onboarding experience that delivered a meaningful increase in paid conversion and ARR.
- Set up shared standards and practical frameworks that help teams make strong decisions independently.

Miro — Design Manager, Core Experiences 2025–2026

- Built and led a design-platform team supporting four product squads, giving clear ownership to Miro's design language.
- Made the case for a shared design-to-code workflow and aligned leadership around the investment, moving the work from a local initiative to an organizational priority.
- Led a refresh of Miro's design language and design-to-code process, creating a clearer path from shared foundations to the final product.

HP — Design Lab Lead 2024–2025

- Led HP's early-stage innovation team, exploring new markets and customer needs before ideas reached the product roadmap.
- Built and tested prototypes with customers to understand which directions were worth pursuing.
- Focused on the riskiest assumptions first, helping teams make better-informed investment decisions.

HP — Product Design Lead 2021–2023

- Led the move toward shared design-system foundations, patterns and product standards.
- Increased component reuse by approximately 40% and shortened update cycles by approximately 25%.
- Defined clear standards for quality, consistency and usability, and followed how they were adopted across products.

HP — Senior Product Designer 2019–2021

- Led four designers working across several product lines and platform projects.
- Helped bring more than 10 applications used by approximately 36,000 companies into a more consistent product experience.
- Worked alongside Product and Engineering from early ideas through delivery, making ownership clearer and reducing late changes.

HP — Product Designer 2017–2019

- Designed and tested early product concepts, helping teams learn before committing to development.
- Built prototypes and ran customer experiments to explore new opportunities and reduce uncertainty.
- Used lessons from both successful and discontinued concepts to shape longer-term product direction and encourage a more experimental way of working.
